## A Guide to the Study of the Christian Religion

Edited by GERALD B. SMITH

*A symposium covering the field of modern religious teaching*

The past quarter of a century has seen remarkable growth in theological knowledge and an unusual change in the points of view. Biblical and theological scholars have worked out new methods of studying old subjects which have led to surprisingly fruitful results. The editor of the present volume has compiled a comprehensive survey of this field by twelve well-known scholars.

"One can find here as nowhere else within the same compass an intelligent and authoritative summary of theological thinking as it exists today among those who by common consent are the recognized leaders in theological learning."—*Northwestern Christian Advocate*.

# THE NEW ORTHODOXY

By EDWARD SCRIBNER AMES

Associate Professor of Philosophy  
The University of Chicago

The war marks the beginning of a new epoch in Christianity. Religion is gaining in reality and sanity and also in vision and incentive. The old orthodoxy sought correctness of opinion through tradition and authority. The new orthodoxy rests upon deeper grounds. Its foundations are in the nature of man; not in his superstition or his credulity but in his heroism, his kindliness, and his imagination. The concerns of religion in our day are bound up with science and art and social idealism. This book is a popular, constructive interpretation of man's religious life in the light of the learning of scholars and in the presence of a new generation of spiritual heroes.
